

TASK MANAGEMENT

Organize workflows efficiently
Set priorities and deadlines
Track completion in real-time
Boost team accountability

POLLS & FEEDBACK

Gather instant feedback from your workforce with quick polls. Make data-driven decisions using real-time results and analytics across departments.

DASHBOARD

Your central hub for real-time insights. The Dashboard provides a dynamic overview of key metrics, team activity, and performance indicators — giving decision-makers instant visibility across all operations at a glance.

FORMS

Flexible data collection with three powerful form types:

- Standard Forms for everyday data entry
- Location Forms for site-specific reporting
- Audit Forms for compliance and inspections

SMART
FORMS

REAL-TIME
DASHBOARD

ANNOUNCEMENT

Keep your entire organization informed and aligned with targeted company-wide announcements
Schedule and publish updates instantly
Reach specific teams or all staff
Pin critical notices for visibility
Track read receipts and engagement

LEARNING & TRAINING

Empower employees with structured learning paths, training modules, and progress tracking to build skills and drive growth.

GUIDES

Create step-by-step documentation
Embed images and media
Organize by category or topic
Share guides across teams

ADMINISTRATION

Manage users, roles, permissions, and system configurations from a centralized control panel with ease.

KEY BENEFITS

- Streamlined user management
- Role-based access control
- System configuration tools
- Audit logs and monitoring

ADMIN PANEL

SYSTEM SETTINGS

CORE MODULES

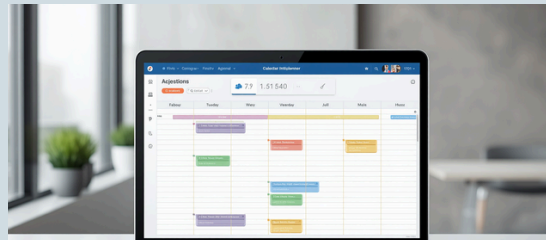

Assign, track, and manage tasks with deadlines and priorities

Monitor progress with real-time status updates and dashboards

Collaborate seamlessly across teams with smart notifications

PLANNER

Stay organized with an intuitive planner that helps teams schedule tasks, set deadlines, and manage calendars efficiently. Coordinate activities across departments and ensure nothing falls through the cracks with smart planning tools.
